SUMMARY

Ph.D. candidate in Computer Engineering at Yeditepe University (4.00 GPA) with 19+ years of enterprise R&D leadership and deep-tech entrepreneurship experience. Built upon a strong corporate engineering foundation at TEB and Nortel/Netaş, with concurrent leadership in 0-to-1 AI architectures, TÜBİTAK-funded projects, and LLM implementations as CAIO and AI Director across high-growth startups (CEIBA Health, Bayegan, Agada Tech, Vivoo). Specialized in transforming advanced AI research into scalable products and measurable business value in healthcare, finance, and commodity trading.

SKILLS

AI & Machine Learning: Artificial Intelligence, Machine Learning, Deep Learning, Generative AI (GenAI), Large Language Models (LLM), Natural Language Processing (NLP), Computer Vision, Question Answering (MRQA), BERT, YOLO, GANs, Anomaly Detection, Fraud Detection, Predictive Analytics, Customer Segmentation, Domain Adaptation, Signal Processing (DSP)

Tools & Technologies: PyTorch, TensorFlow, Apache Spark, Java, Oracle, AMQP, MQTT

Leadership & Management: AI Strategy & Roadmapping, R&D Management, TÜBİTAK TEYDEB 1501 / 1832, EU Horizon 2020, Grant & Incentive Management, Team Leadership (up to 17 engineers), Scrum (PSM I, PSPO I), Product Ownership

Industries: HealthTech, FinTech & Banking, Commodity Trading, E-commerce, Telecommunications, IoT & Smart Cities

WORK EXPERIENCE

Director of Artificial Intelligence

CEIBA HEALTH | Jan 2026 - Apr 2026

- Led AI and R&D strategy for next-generation healthcare solutions
- Secured and managed TÜBİTAK 1501 and 1832 projects
- Directed YOLO-based real-time fall risk detection (>90% accuracy, <10s alert latency) and architected both the LLM-powered "AI Companion" for automated SOAP notes and a DSP-based strip analysis system for ECG rhythm analysis

Chief AI Officer (CAIO)

Bayegan | May 2025 - Jul 2025

- Spearheaded the AI roadmap of a commodity trading company, aligning it with business objectives to enhance predictive analytics and risk management
- Directed model training and optimization for automated trading systems
- Fostered collaboration with trading desks and software engineers to integrate AI into workflows

VP of Artificial Intelligence

Agada Tech | Sep 2024 - Jan 2025

- Spearheaded AI-driven customer segmentation models and oversaw real-time next-order prediction systems for high-volume e-commerce
- Pioneered advanced AI methodologies to enhance customer loyalty strategies

AI & Applied Data Science Manager

Yapı Kredi Teknoloji | May 2024 - Aug 2024

- Led a team of 17 engineers with 0% attrition
- Managed critical AI projects such as Digital Mizan and Fraud Detection
- Delivered cost and FTE savings through computer vision, anomaly detection, and deep learning
- Led ITU Teknopark-supported R&D and contributions to Horizon 2020

Chief AI Officer (CAIO) & Data Analytics
Vivoo | Aug 2023 - Feb 2024

- Managed the development of "Welly", an LLM-based wellness assistant, and AI-driven test strip analysis tools
- Led a TÜBİTAK 1501-supported project analyzing nutritional values from meal photos

Senior R&D Manager (Artificial Intelligence, Software)
TEB - Türk Ekonomi Bankası | Aug 2016 - Aug 2023

- Led a team of 10 engineers in TEB's R&D department
- Idea owner and supervisor of the TÜBİTAK TEYDEB 1501-supported NEURON (AI chatbot) and ConnecTEB projects
- Led deep learning/NLP initiatives such as Dragon and Ribbon
- Pioneered the transition of the first R&D team to TEB ARF

Infrastructure Software Development Assistant Project Leader
TEB - Türk Ekonomi Bankası | Oct 2015 - Aug 2016

- Architect of the core IT framework used by TEB's software designers across all banking projects
- Led scalability, performance, and new-requirement integration efforts

Switch and ATM Software Development Assistant Project Leader
TEB - Türk Ekonomi Bankası | Nov 2014 - Oct 2015

- Core member of the Aquila team on TEB's first TÜBİTAK TEYDEB 1501 project, a 100% in-house XTM system
- Led a team of 5 engineers from prototype to full-scale deployment

Internet Banking Software Development Project Supervisor
TEB - Türk Ekonomi Bankası | Jan 2013 - Nov 2014

- Team lead for over 10 engineers across retail and commercial internet banking
- Spearheaded the redesign of both platforms and delivered an advanced smart search feature

Senior Software Design Engineer
NORTEL Networks - NETAŞ | Mar 2010 - Jan 2013

- Designed and developed the A2 Base/OAM system manager and its sub-components using Java and Oracle
- Built high-performance, resilient architectures for critical network infrastructure

Junior Software Design Engineer
NORTEL Networks - NETAŞ | Jul 2007 - Mar 2010

- Developed and tested system management (OAM) software components in Java for telecommunications network infrastructure

EDUCATION

Ph.D. - Computer Engineering
Yeditepe University | Taught in English | 2020 - Oct 2026 (Expected)

GPA: 4.00/4.00 (Ranked 1st, Full Scholarship).

Thesis: Incorporating prior knowledge in Deep Learning (DL) architectures for image recognition and medical diagnosis with small cohort data.

M.Sc. - Computer Engineering
Yeditepe University | Taught in English | 2018 - 2020

GPA: 3.87/4.00 (Ranked 1st).

Thesis: A Turkish Question Answering System Based on Deep Learning Networks (BERT).

B.Sc. - Computer Engineering
Ege University | 2002 - 2007

GPA: 3.34/4.00 (Ranked 4th). Education in core computer engineering disciplines and software architecture.

ALES: 88 (2018) - Academic Personnel and Postgraduate Education Entrance Exam
YÖKDİL: 85 (2026) - Higher Education Institutions Foreign Language Exam (English)

R&D PROJECTS

Image Processing-Supported Patient Monitoring and Fall Risk Management
CEIBA HEALTH | TÜBİTAK TEYDEB 1501 | 2026
Supervised R&D project focusing on AI-based healthcare solutions.

Green and Sustainable Digital Solutions in the Health Sector
CEIBA HEALTH | TÜBİTAK TEYDEB 1832 | 2026
Supervised R&D initiative for eco-friendly digital health.

AI-Based Dynamic Customer Segmentation and Personalized Gamification System
Agada Tech | TÜBİTAK TEYDEB 1501 | 2024 – 2025
Advanced AI models for user retention and personalized experiences.

AI-Based Nutrition Analysis System
Vivoo | TÜBİTAK TEYDEB 1501 | 2023 – 2024
Multimodal health AI project expanding personalized nutrition insights.

Dragon - Banking Question Answering (MRQA) System
TEB - Türk Ekonomi Bankası | Boğaziçi Technopark | 2022 – 2023
Machine reading comprehension-based smart search over banking documents, giving call center staff instant, concise answers to banking queries.

AI-Based Customer Chatbot
TEB - Türk Ekonomi Bankası | TÜBİTAK TEYDEB 1501 | 2020 – 2022
Developed NEURON, an AI chatbot integrated into digital banking.

ConnecTEB - VoIP & Multimedia Solution
TEB - Türk Ekonomi Bankası | TÜBİTAK TEYDEB 1501 | 2016 – 2018
In-house secure video conferencing tool adopted bank-wide.

Orion & Aquila (In-House XTM)
TEB - Türk Ekonomi Bankası | TÜBİTAK TEYDEB 1501 | 2014 – 2016
Core IT framework development and scaling of ATM/Switch infrastructure.

InVisIBLe Plus
Yeditepe University | EU-Supported
Inclusive and innovative learning tool for visually impaired and blind people.
