

C. Balkı GEMİRTER ALAÇAM

Chief AI Officer (CAIO) & R&D Leadership

Email: cbalkig@gmail.com | Phone: +90 539 293 77 07 | Web: www.cavidebalki.com | LinkedIn: linkedin.com/in/cbalkig

Currently a Ph.D. Candidate with a 4.00 GPA in Computer Engineering at Yeditepe University, C. Balkı GEMİRTER ALAÇAM has a deeply rooted 19+ year career in artificial intelligence, deep learning, and innovation management. She has served as Chief AI Officer (CAIO) and R&D Director at leading industry organizations such as CEIBA Health, Bayegan, Agada Tech, Yapı Kredi Technology, and TEB. She has successfully executed critical projects including LLM-based assistants in health-tech, fraud detection in finance, and predictive modeling in commodity trading.

EXPERIENCE

Independent Consultant & Fractional CAIO

May 2026 - Present

AI Strategy Consultant

Transforming AI investments into measurable commercial success for visionary organizations. Design and strategic consulting for Large Language Models (LLM) and predictive analytics architectures.

Director of Artificial Intelligence

Jan 2026 - Apr 2026

CEIBA HEALTH

Led AI strategy for next-generation healthcare solutions. Managed TÜBİTAK-supported computer vision projects.

Chief AI Officer (CAIO)

May 2025 - Jul 2025

Bayegan

Designed AI-supported risk prediction systems and predictive models for commodity trading.

VP of Artificial Intelligence

Sep 2024 - Jan 2025

Agada Tech

Managed customer segmentation models and loyalty optimization processes using Reinforcement Learning (RL).

AI & Applied Data Science Manager

May 2024 - Aug 2024

Yapı Kredi Teknoloji

Designed fraud detection and anomaly detection systems. Led R&D teams contributing to Horizon 2020 projects.

Teaching Assistant

Sep 2021 - Jun 2026

Yeditepe University

Academic assistantship and project consulting for Artificial Intelligence (CSE 462, AI 401), Deep Learning (CSE 588), and Algorithm Analysis (CSE 311) courses.

Chief AI Officer (CAIO)

Aug 2023 - Feb 2024

Vivoo

Developed LLM-based health assistant (Welly) and AI-driven nutrition analysis tools.

AI & R&D Manager

Aug 2016 - Aug 2023

TEB

Developed banking assistants (NEURON) and managed TÜBİTAK-supported international R&D projects.

Senior Software Design Engineer

Jul 2007 - Jan 2013

NORTEL Networks - NETAŞ

Designed system management software using Java and Oracle. Developed high-performance, resilient architectures for critical network infrastructure components.

EDUCATION

Ph.D. - Computer Engineering

2020 - Oct 2026

Yeditepe University

GPA: 4.00/4.00 (Full Scholarship). Thesis: Incorporating prior knowledge in Deep Learning (DL) architectures for image recognition and medical diagnosis with small cohort data.

M.Sc. - Computer Engineering

2018 - 2020

Yeditepe University

B.Sc. - Computer Engineering

2002 - 2007

Ege University

GPA: 3.34/4.00 (Ranked 4th). Education in core computer engineering disciplines and software architecture.

TÜBİTAK & R&D PROJECTS

Image Processing Supported Patient Monitoring and Fall Risk Management

TÜBİTAK TEYDEB 1501

CEIBA HEALTH

Supervised R&D project focusing on AI-based healthcare solutions.

Green and Sustainable Digital Solutions in Health Sector

TÜBİTAK TEYDEB 1832

CEIBA HEALTH

Supervised R&D initiative for eco-friendly digital health.

AI-Based Dynamic Customer Segmentation and Personalized Gamification System

TÜBİTAK TEYDEB 1501

Agada Tech

Advanced AI models for user retention and personalized experiences.

AI-Based Nutrition Analysis System

TÜBİTAK TEYDEB 1501

Vivoo

Multimodal health AI project expanding personalized nutrition insights.

AI-Based Customer Chatbot

TÜBİTAK TEYDEB 1501

Türk Ekonomi Bankası

Developed NEURON, an AI chatbot integrated into digital banking.

ConnectEB - VoIP & Multimedia Solution

TÜBİTAK TEYDEB 1501

Türk Ekonomi Bankası

In-house secure video conferencing tool adopted bank-wide.

Orion & Aquila (In-house XTM)

TÜBİTAK TEYDEB 1501

Türk Ekonomi Bankası

Core IT framework development and scaling of ATM/Switch infrastructure.

InViSiBLe Plus

EU Supported

Yeditepe University

Inclusive and Innovative learning tool for Visually Impaired and Blind people.
